TIMIA CAPITAL CORP.**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND FEBRUARY 28, 2021**

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

TIMIA Capital Corp. (“TIMIA” or the “Company”) is incorporated under the Business Corporations Act of British Columbia. The Company is listed on the TSX Venture Exchange (the “TSX-V”) trading under the symbol “TCA” as well as the OTCQB Venture Market (“OTCQB”) under the symbol of TIMIA. The Company builds and manages private credit limited partnerships that have focused investing strategies for the institutional and accredited investors markets. In the technology space TIMIA utilizes a proprietary loan origination platform to originate, underwrite and service private-market, high-yield loan opportunities. TIMIA offers revenue-based investment to fast growing, business-to-business Software-as-a-Service (or SaaS) businesses in North America. Recently acquired Pivot Financial specializes in asset-based private credit targeting mid-market borrowers in Canada. Sources of revenue include interest income from loans receivable, as well as income from the settlement of loans and transaction fees from due diligence. In addition, Pivot earns loan servicing fees and performance fee income for loan management services performed. The Company’s head office and principal place of business is 835-1100 Melville St, Vancouver, British Columbia, Canada. These condensed interim consolidated financial statements were authorized for issuance by the Board of Directors on May 26, 2022.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

TIMIA prepares its condensed interim consolidated financial statements (“financial statements”) in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). The preparation of condensed interim consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires that management exercise judgment in applying TIMIA’s accounting policies.

Basis of presentation

The condensed interim consolidated financial statements have been prepared using the historical cost basis except for certain financial instruments, which are measured at fair value. All amounts are expressed in Canadian dollars unless otherwise stated. Certain comparative figures in these condensed interim consolidated financial statements have been reclassified in order to conform with the current year presentation.

Basis of consolidation

The Company uses the criteria outlined in IFRS 10 in order to determine whether it has control of its Limited Partnerships. In applying the criteria outlined in IFRS 10, judgment is required in determining whether TIMIA controls TIMIA Capital I Limited Partnership (“LP I”), TIMIA Capital II Limited Partnership (“LP II”) and TIMIA Capital Preferred Return III Limited Partnership (“LP III”), together the “LPs”. Making this judgment involves taking into consideration the concepts of power over LP I, LP II and LP III, exposure and rights to variable returns, and the ability to use power to direct the relevant activities of the LP’s so as to generate economic returns. Using these criteria, management has determined that TIMIA does control the LP’s and as a result consolidates the accounts of LP I, LP II and LP III. Subsidiaries are those entities which the Company controls by having the power to govern the financial and operating policies of such entities so as to obtain economic benefits from their activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity.

TIMIA CAPITAL CORP.**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND FEBRUARY 28, 2021**

(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES (continued)**Basis of consolidation (continued)**

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

These condensed interim consolidated financial statements include the accounts of the Company and the following subsidiaries:

Entity	Country	Percentage Ownership of Parent
TIMIA Capital Corp.	Canada	-
TIMIA Capital GP Inc.	Canada	100%
TIMIA Capital I Limited Partnership	Canada	12.39%
TIMIA Capital II Limited Partnership	Canada	5.02%
TIMIA Capital III Preferred Return Fund Limited Partnership	Canada	21.50%
TIMIA Capital III Preferred Return Fund	Canada	0%
TIMIA Capital II GP Inc.	Canada	100%
TIMIA Capital III GP Inc.	Canada	100%
TIMIA Capital Holdings Limited Partnership	Canada	100%
PIVOT Financial Services Inc.	Canada	100%
PIVOT Financial I Limited Partnership	Canada	100%
2862454 Ontario Inc.	Canada	100%

All significant intercompany balances and transactions have been eliminated on consolidation.

Significant accounting judgements and estimates

The preparation of the condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the condensed interim consolidated financial statements and reported amounts of revenues and expenses during the reporting period.

Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Loans receivable are reviewed on a quarterly basis as to their collectability and an appropriate impairment charge is provided where considered necessary. The Company estimates an expected credit loss on a quarterly basis by reviewing the underlying loan portfolio. The allowance represents the Company's estimate of the expected credit

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES (continued)

Basis of consolidation (continued)

losses inherent in the loan portfolio, net of the future income stream belonging to the holders of the co-investment agreements. In addition, the Company also completes a loan specific analysis to assess whether there are indications of impairment. The Company reviews a variety of factors such as maintenance of loan repayments in accordance with the contractual obligations, general economic conditions, the underlying stability of the company to which the loan was granted and has periodic discussions with the management of each company. The Company then makes an assessment using this information on whether or not the loan is impaired.

Changes in these estimates and assessments may have a material impact on these condensed interim consolidated financial statements. The information about other significant areas of estimation uncertainty considered by management in preparing the condensed interim consolidated financial statements is:

- Variables used in determining expected credit losses;
- Fair value of equity investments not quoted in an active market;
- Measurement of equity and liability components of convertible debentures;
- Recognition of deferred tax assets;
- Estimated fair values of share-based payments awards;
- Fair value of identifiable assets acquired and liabilities assumed in business combination.

The information about significant areas of judgment considered by management in preparing the condensed interim consolidated financial statements are:

- Determination of control of entities, giving rise to the consolidation thereof; and
- Indicators of impairment of financial instruments, intangible assets and goodwill.

3. LOANS RECEIVABLE (continued)*Loans receivable by type*

The Company provides three main types of loan facilities.

- TIMIA offers **Interest Only Loans** that are designed for borrowers that anticipate achieving a financing milestone in the relatively near future. Typically, two to three years in length, these facilities require the borrower to pay approximately two thirds of the interest monthly. The remainder of the interest is accrued over the term of the loan and is due and payable at the end of the term.
- TIMIA offers **Amortized Loans** which are a type of growth capital provided to a company in which the timing of loan payments are tied to the forecast revenue of the company. Any unamortized amounts are due and payable at the end of the term.
- Pivot Financial provides **Term Loan** and **Factored Facilities** that are asset-based loans with fixed or determinable payments. Factored facilities earn administration fees up to 1.5% and are purchased with recourse. Term loans have generally fixed interest rates ranging from 9.5% - 15%, secured and range in maturity generally are due on demand or in a period less than one year.

The following table presents a breakdown of the loan portfolio by type of loan.

	At March 31, 2022	At December 31, 2021

7. COMMITMENTS AND CONTINGENCIES

The Company has provided guarantees and limited recourse guarantees to certain lenders with respect to loan payable agreements in place. These arrangements were acquired as part of the Pivot acquisition. Recourse is limited to the lender's right, title and interest in collateral under the loan agreement, such as cash and other assets defined.

8. DEBENTURES

During fiscal 2018 and 2019 the Company issued Series E debentures for a total of \$1,320,000 with warrants. This private placement which was priced at \$100 per unit resulted in a total issuance of 13,200 debentures and 440,000 warrants. The debentures bear an interest rate of 12% per annum, payable quarterly in arrears, have a term of five years from November 30, 2018 and are secured against the assets of the Company. The warrants are exercisable for five years from November 30, 2018, at a price of \$0.30 per share. A total commission of \$28,700 and 95,666 broker warrants, exercisable at \$0.30 with a two-year term, were paid as part of this transaction.

9. CO-INVESTMENT OBLIGATIONS

The Company entered into co-investment agreements that provide non-dilutive capital in exchange for the ability for qualified investors to participate directly in the Company's portfolio of investments ("Co-investors"). Under this model, Co-investors enter into an agreement that entitles them to receive a fixed percentage of all cash flow derived from a specified portfolio of investments. The co-investment agreements will terminate upon the discharge of all of the obligations of the respective parties that make up the underlying loans receivable portfolio. The actual amounts paid and timing of payments under the co-investment agreements depend on the performance of the underlying loans receivable. Total amounts owing at March 31, 2021 are recorded as Co-investment obligations on the consolidated statement of financial position.

10. FOREIGN CURRENCY FORWARD CONTRACT

On April 16, 2020, the Company entered into a forward contract to secure access to US funds for a fixed foreign exchange rate. The Company uses foreign currency forward contracts to manage risk related to variable foreign exchange rates. Under the forward contract, the Company agreed to sell US\$2,500,000 for \$3,493,750 on April 29, 2021. In March 2021, the maturity date was extended to August 31, 2021. In August 2021 the maturity date was extended to December 31, 2021 and the settlement amount revised to \$3,460,000. In November 2021 the maturity date was extended to January 14, 2022.

On January 14, 2022, the forward contract matured and was net settled with the counterparty. The gross amount receivable was \$3,130,538 and a gain of \$30,716 was recognized in the period.

11. REVOLVING CREDIT FACILITIES

The amount that was available to be drawn under the Credit Facility was \$7,500,000 with a maturity of November 22, 2020 ("Maturity Date"). Subsequently, the maturity date was amended to January 15, 2022.

The principal drawn on the Credit Facility will bear an interest rate equal to the greater of a) prime plus 5.7%, or b) 10.5%. Amounts drawn in excess of 50% of assets held by this facility is subject to an interest rate of 15%. The standby fee on the undrawn balance is equal to 1% of the undrawn principal amount of the facility is payable monthly. A minimum usage fee is due if at any time the principal amount outstanding under the facility falls below \$3,500,000.

On January 17, 2022, the facility with accrued interest was repaid in the amount of \$4,508,423.

12. LOANS PAYABLE

As part of the Pivot acquisition, the Company assumed a number of loans payable. Loans payable consists of the following as at March 31, 2022 and December 31, 2021:

	Interest Rate	Security	March 31, 2022	December 31, 2021
Loans payable	10%	Unsecured	1,340,000	1,340,000
Loans payable	10.75%	Unsecured	5,500,000	5,500,000
Loans payable	11%	Unsecured	9,329,181	11,120,891
	Higher of prime + 5.3 or			
Loans payable	9.25%	Unsecured	12,161,600	8,850,000
	Higher of prime + 5.5 or			
Loans payable	9.5%	Secured	47,000,000	41,000,000
Ending balance			75,330,781	67,810,891

For all loans payable, the initial term is set at one year. The lender has the option to extend while the Company has the option to repay at any time, therefore all loans payable are classified as current liabilities.

The secured loans payable is a revolving credit facility from a senior lender and has a combined authorized limit of \$60,000,000. The security on the secured loan payable to the lender is a general security agreement and directly related to a loan receivable from a related party. The agreement also includes covenants regarding reporting requirements, liens on account, distribution limitations and cash investment limits. The loan is designated as FVTPL to ensure measurement consistency with the credit risk associated with the related loan receivable that is security to the loan.

All loans include covenants which the Company is required to report on a regular basis. Covenants restrict total debt levels relative to permitted investments as well as total net debt relative to subordinated debt. The Company was in compliance with all covenants as at March 31, 2022.

13. SHARE CAPITAL*(a) Common shares:*

An unlimited number of common voting shares are authorized without par value. As of March 31, 2022 TIMIA has 59,582,007 common shares issued and outstanding. On January 5, 2022, the Company closed a private placement having raised an aggregate of \$2,188,750 and issued 6,253,571 units at a price of \$0.35 per unit. Each unit consists of one common share and one half of one common share purchase warrant. Each warrant entitles the holder to purchase one common share at a price of \$0.50 for a period of 24 months following the closing date.

(b) Preferred shares:

As of March 31, 2022, TIMIA has 10,485,994 non-cumulative Series A Preferred shares issued and outstanding. Holders of Preferred shares will be entitled to receive fixed non-cumulative preferential cash dividends, if, as and when declared by the board of Directors of the Company at an annual rate equal to \$0.08 per Preferred share. Dividends, if declared, will be payable on the last day of December, March, June and September in each year, or if such day is not a business day, on the next business day, at a quarterly rate of \$0.02 per Preferred Share.

The Preferred Shares will rank senior to the Common shares of the Company with respect to declared but unpaid dividends. The Preferred Shares are retractable by the Corporation at any time on or after the date that is three years after the Closing Date. On or after the date that is three years after the closing date, the Company may, at its option, upon 10 days' prior written notice, retract all or any number of the Preferred shares. Upon notice of retraction by the Company, holders of the Preferred Shares may elect to receive either: (a) a cash payment equal to the offering price; or (b) one Common share in exchange for each one Preferred share, subject to adjustment. The Preferred shares do not have a fixed maturity date and are not redeemable at the option of the holders of Preferred shares. Holders of the Preferred shares may elect to convert the Preferred shares into Common shares on the basis of one Common share for each Preferred share held, subject to adjustment, at any time.

(c) Dividends declared:

On a quarterly basis the Company's Board of Directors declared and paid dividends on Series A Preferred shares as follows:

13. SHARE CAPITAL (continued)*(e) Normal Course Issuer Bid*

On February 24, 2021, the TSXV approved and the Company announced its intention to commence a normal course issuer bid (NCIB) to repurchase the Company's common shares. Under the NCIB the Company may purchase for cancellation up to 3,313,699 common shares over a 12-month period ending February 28, 2022. Transactions were executed from time to time in the open market in accordance with the rules and policies of the TSXV. Purchase and payment for the shares made by the Company were made in accordance with the rules of the TSXV and the price that the Company paid for any shares acquired by it at the market price of the shares at the time of acquisition. The Company entered into a share purchase plan with a broker in order to facilitate the repurchase of its shares under the NCIB which covers the period from March 1, 2021 to February 28, 2022. Under the Plan, the Company's broker was able to repurchase common shares under the NCIB. Purchases were made by TIMIA's broker based upon the parameters prescribed by the TSX and the terms of the plan.

During the 3 months ended March 31, 2022, the Company canceled 35,500 shares previously repurchased under the 2021 NCIB.

16. FINANCIAL INSTRUMENTS AND RISK (continued)**Financial Instruments (continued)**

The estimated fair values of cash and accounts payable approximate their respective carrying values due to their nature and short terms to maturity. Equity investments and forward contract receivable are carried at their fair value. Loans receivable, accounts receivable, co-investment obligations, revolving credit facility, and debentures are carried at amortized cost. Loans payable are split between amortized cost and FVTPL.

The fair value measurements use a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (b) Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- (a) Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The following table presents the Company's financial instruments, measured at fair value on the consolidated statements of financial position and categorized into levels of the fair value hierarchy:

	Balance at March 31, 2021	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash	3,768,230	3,768,230	-	-
Equity investments	1,333,618	-	-	1,333,618

There were no transfers from Level 1 to 2 or Level 2 to 1 during the period.

The investment operations of the Company's business involve the purchase and sale of securities, and accordingly, a portion of the Company's assets are currently comprised of financial instruments. The use of financial instruments can expose the Company to several risks, a discussion of which is provided below.

16. FINANCIAL INSTRUMENTS AND RISK (continued)**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company maintains sufficient cash balances to meet current working capital requirements. The Company is dependent on obtaining regular financings in order to continue as a going concern. Despite previous success in acquiring these financings, there is no guarantee of obtaining future financings. The Company's cash consists of cash deposited in business accounts held by high credit quality financial institutions.

	Carrying amount	Contractual cash flows	Within 1 year	Within 2 years	Within 5 years
	\$	\$	\$	\$	\$
Accounts payable	2,083,479	2,083,479	2,083,479	-	-
Loans payable	75,330,781	75,330,781	-	-	-
Non-controlling interests	31,767,927	31,767,927	5,526,913	16,831,002	9,410,012
Debentures & Co-investment obligations	27,740	27,740	27,740	-	-
Total	109,209,927	109,209,927	7,638,132	16,831,002	9,410,012

Cash flows relating to non-controlling interests are based on expected cash flows. The Company is obligated to return the net assets attributable to limited partners at the end of each partnership agreement. Timing in the above table is based on estimated cash flows and expected maturities of the investments held.

Foreign exchange risk

The Company's foreign exchange risk is due to the Company's loan investments totaling US\$27,369,575 which are currently valued at \$34,201,021.

The Company also consolidates two limited partnerships which operate with a functional currency of US dollars. Changes in US and Canadian dollar exchange rates will give rise to foreign currency translation adjustments that may have a material impact on the other comprehensive income recognized by the Company. A 10% movement in the US dollar exchange rate would increase/decrease the accumulated other comprehensive translation adjustment on the consolidated statement of financial position by \$609,436.

Interest rate risk

The Company's exposure to interest rate risk arises from the interest rate impact on its cash. The Company's practice has been to invest cash at floating rates of interest in order to maintain liquidity, while achieving a satisfactory return for shareholders. A 10% change in the interest rate would not result in a material impact on the Company's operations.

16. FINANCIAL INSTRUMENTS AND RISK (continued)**Market risk**

Market risk is the risk that the fair value of, or future cash flows from the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity prices. The Company is exposed to market risk in trading its investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices. Additionally, the Company adjusts its investments to fair value at the end of each reporting period. This process could result in significant write-downs of the Company's investments over one or more reporting periods, particularly during periods of overall market instability, which could have a significant unfavourable effect on the Company's financial position.

The Company manages market risk by having a portfolio of investments not singularly exposed to any one issuer; however, its investment activities are currently concentrated primarily in the technology and energy sectors. The Company also manages its market risk by reviewing commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash and loan receivables. The Company limits exposure to credit risk by maintaining its cash with financial institutions. Deposits held with these institutions may exceed the amount of insurance provided on such deposits. The Company's maximum exposure to credit risk at the reporting date is the carrying value of cash, restricted cash, accounts receivable, forward contract and loans receivable.

Credit risk measurement

In monitoring credit risk, the Company performs ongoing credit evaluations of its investees' financial condition. The evaluation considers delinquency trends, sales volumes and the investee's ability to maintain its financial condition. In accordance with IFRS 9, the Company calculates an expected credit loss as outlined below.

Expected credit loss measurement

IFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarized below:

- A financial instrument that is not credit-impaired on initial recognition is classified in 'Stage 1' and has its credit risk continuously monitored by the Company.
- If a significant increase in credit risk ('SICR') since initial recognition is identified, the financial instrument is moved to 'Stage 2' but is not yet deemed to be credit-impaired.
- If the financial instrument is credit-impaired, the financial instrument is then moved to 'Stage 3'.

16. FINANCIAL INSTRUMENTS AND RISK (continued)

Credit risk (continued)

- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.

The following diagram summarizes the impairment requirements under IFRS 9:

The Company assigns each loan in the portfolio to a credit quality stage of Stage 1, Stage 2 or Stage 3. This credit quality staging is then used to calculate the lifetime ECL. The lifetime ECL is the maximum loss in default adjusted for the probability of loss. At each reporting period, the ECL is calculated for each loan receivable. The Company periodically reviews the ECL model to determine if industry trends or macro-economic factors have changed, causing a need to adjust the ECL model. The expected credit loss recorded in the consolidated statement of net income (loss) is a recovery of \$196,337 for the 3 months ended March 31, 2022 and the expected credit loss accrued on the consolidated statement of financial position is \$600,061 as at March 31, 2022.

Significant increase in credit risk (SICR)

The Company considers a financial instrument to have experienced a SICR when one or more of the following quantitative or qualitative criteria have been met:

- The investment is more than 30 days but less than 90 days in arrears on its contractual payment obligations;
- The Company's management believes the cash resources available to the investment may not be sufficient to meet ongoing needs; or
- The investment has significantly underperformed with respect to revenue growth and expense control.

A loan is considered to be in stage 3 if:

- The borrower is 90 days past due on contractual payments;
- The borrower is in long-term forbearance;
- The borrower is insolvent; or
- The borrower is in material breach of financial covenants.

Expected credit loss model

The Company determines the lifetime expected credit loss to be the maximum loss in a default adjusted for the probability of loss. At each reporting period, the ECL is calculated for each loan receivable. The

16. FINANCIAL INSTRUMENTS AND RISK (continued)**Credit risk (continued)**

maximum default loss is a function of the relative exposure of the Company to a particular investment. The Company assesses this as a ratio of the enterprise value of the underlying entity to the amortized loan balance. Based on this ratio, the Company assigns the loan receivable to a maximum default loss band. Each band has a loss percentage based on historic experience.

The probability of default represents the likelihood that the borrower defaults on its financial obligation. As such it is dependent on the stage of the investment at the measurement date. An investment in stage 3 is in default by definition so the likelihood of default is 100%. Stage 1 and stage 2 credits are assigned default probabilities based on historic experience and an assessment of forward looking macro-economic trends. If Company management determines that a segment of the portfolio is facing macro-economic trends that differ from other investments in the portfolio, the probability of default will be adjusted accordingly for that segment.

The Company reviews the stage of each loan receivable and recalculates the ECL every reporting period. Changes to the ECL are recognized on the consolidated statement of income (loss) in the period of the change.

Credit risk exposure

The Company's credit risk exposure by ECL staging is included in a table in Note 3 Loans receivable.

17. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to: a) identify and to invest in investments with strong cash-flow and long-term growth potential; b) to maintain financial strength, to protect its ability to meet its ongoing liabilities and to continue as a going concern and maintain creditworthiness; c) maximize returns for shareholders over the long-term. If the Company does not receive sufficient cash flows from its activities, it may have to undertake a private placement to cover its cash outflows.

The Company is subject to certain restrictions on its assets as described in Notes 9, 10, 12 and 13. The Company's share capital is not subject to external restrictions. The capital of the Company comprises shareholders' equity, Limited Partnership capital, note payable, debentures and co-investment obligations.

The Company manages and adjusts the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or dispose of assets.

18. SEGMENT DISCLOSURES

The Company has one reportable segment. The Company utilizes a proprietary loan origination platform to originate, underwrite and service private-market, high-yield loan opportunities. The Company has two operating divisions: TIMIA Capital which offers revenue-based investment to fast growing, business-to-business Software-as-a-Service (or SaaS) businesses in North America and Pivot Financial, which specializes in asset-based private credit targeting mid-market borrowers in Canada. The Company's operations are all related to providing debt financing and the earnings attributable to shareholders' is primarily fees earned on assets under management.

19. SUBSEQUENT EVENTS

On May 26, 2022, the Company's board of directors declared a quarterly cash dividend of \$0.02 per Series A Preferred Shares, payable on June 30, 2022, to Series A preferred shareholders of record as of June 23, 2022.

On May 5, 2022, the Company announced that it has entered into a non-binding letter of intent to acquire Brightpath Capital Corp. and Brightpath Residential LP I (collectively, "Brightpath"), subject to shareholder approval. Brightpath is one of Canada's leading private providers of residential mortgages focused on Ontario and British Columbia. The purchase price is approximately \$30,500,000 and is comprised of a combination of 31,250,000 common shares with a deemed value of \$0.40 per share and 18,000,000 series A preferred shares with a deemed value of \$1.00 per share. One of the shareholders of Brightpath is on the Board of Directors of the Company.

On May 12, 2022, the Company announced that it has agreed to acquire approximately 77% of a Canadian-based leading provider of specialty finance lending company, for a purchase price of approximately \$9,240,000. The total common share valuation of the specialty finance company is \$12,000,000.
